AUTO PARADE RULES.

Report promptly at 10 o'clock. Parade will form in two divisions, one at corner of Cascade and Kiowa and the other at Cascade and Huernano. Both divisions will meet at Cascade and Pikes Peak and proceed eastward on Pikes Peak to Nevada avenue, six abreast.

Have all tops and windshields down. Have your car filled with people. Passenger cars only will participate in parade. All other vehicles and all pedestrians will keep off Pikes Peak avenue during the parade.

Aides will meet with Marshal G. W. Blake at his office at 9:30 a. m.

Everything is in readiness for the big automobile parade to be held this morning on Pikes Peak avenue. For the moving pictures that the Chamber of Commerce is having taken as the big advertising feature of the year, invitations have been sent to nearly 900 auto owners to participate in the parade, which will last only a short time but which, according to the plans of the advertising committee, will result in showing this city as the biggest automobile center in the west.

Starts at 10:30 A. M.

The parade will start at 10:30 a. m. on Pikes Peak avenue, proceeding east. It will be headed by Marshal G. W. Blake and C. P. Stephens and automobiles carrying Mayor McKesson and the other city commissioners, the county commissioners and the directors of the Chamber of Commerce.

Several of the leading autos in the parade will bear banners of various states, thus carrying out the tourist idea, upon which the entire film is based. Half of the machines will start from Cascade and Kiowa, and the other half from Cascade and Huernano. They will proceed down Pikes Peak avenue six abreast. Only passenger autos will be allowed in the parade. No other traffic or pedestrian travel will be allowed. Chief of Police Burton has detailed a number of officers to handle the crowds. The moving picture machine will be stationed on Pikes Peak avenue, between Tejon and Nevada.

The following aides have been appointed by the marshals to assist in handling the parade: H. P. Bonk, J. D. Burt, W. C. Clemens, Rudolph Downs, H. K. Duval, F. D. Denton, F. L. Gutmann, J. D. Hiltbrand, H. C. Hughes, J. R. Lowell, Hans Mahneke, W. H. Manning, A. L. Melson, D. E. Monroe, W. H. R. Stone, J. R. Stone, T. C. Turner, W. R. Willis and Dana E. Wood. These are requested to meet at Marshal Blake's office at 9:30 to receive instructions. After the parade is started it will take but a few minutes to run the machine past the movie man.

Will Take View of Tejon Street. Immediately following the procession, a view of Tejon street will be taken and it is requested that as many people and machines as possible be on the street at this time, about 11 o'clock.

Before the parade this morning, a number of views of North Cascade avenue and of the Denver road, will be taken. Views will be taken of the students and buildings at Colorado college at 9:15 o'clock. This afternoon a number of school scenes will be filmed, and Superintendant (Continued on Page Three)

CHARACTER THE MAIN ESSENTIAL

JUDGE KINNEY ADDRESS ES SCHOOL TEACHERS

President Board of Education Ends 10 Years of Service; Formal Reception

This was a farewell message left with the teachers of Colorado Springs yesterday afternoon by County Judge W. P. Kinney, president of the board of education, who closed his 10 years of service as a member of the board last night. A special meeting of all teachers in the city was held at the high school in honor of Judge Kinney and the Commissioner J. F. Hubert, who ended their terms as directors, and to meet the new members of the board, Frank P. Evans and Frank C. Hayman. Mr. Kinney presented all the teachers with carnations as a token of his appreciation of their work, and his personal friendships among the staff.

Judge Kinney expressed himself as a strong advocate of "utilitarian education." "I believe that every boy or girl who leaves the high school should be able to earn his or her own living," he said. "I am strongly in favor of the special courses we have introduced in the schools of Colorado Springs. During my membership on the board we have tried to develop along these lines, and the commercial, manual training and domestic science departments bear evidence to that fact."

Judge Kinney dealt at length with those who officiate, the work of the schools. "They are always with us," he said, "but it is enough to say that those who criticize the schools the most are those who know the least about them. Probably no other profession has as many theories advanced about its work, and so many experiments offered, valuable only because they change day by day. If all the ideas and schemes advanced by patrons as helps to school teachers were adopted, a 48-hour day for teachers would not be enough."

"I especially value the Colorado Springs teachers for what they have done for my children, and this is what has been done for all the children in the city."

To Aid as Juvenile Judge.

Judge Kinney laid special emphasis on the assistance he expects to receive from the school system in his work as juvenile judge. He said, "I feel that knowing you as I do, and working together, we can accomplish much in my new line of endeavor among the children, that of the capacity of a judge of their affairs."

"We are going to have boys and girls are sent to state institutions, where they learn trades and professions through which they can earn their own living." I feel that there must be some fault in our educational system, and I hope that by working together we can solve this problem. The schools should furnish an opportunity for such training, and in doing so should provide discipline that will not be of a nature (Continued on Page Two)

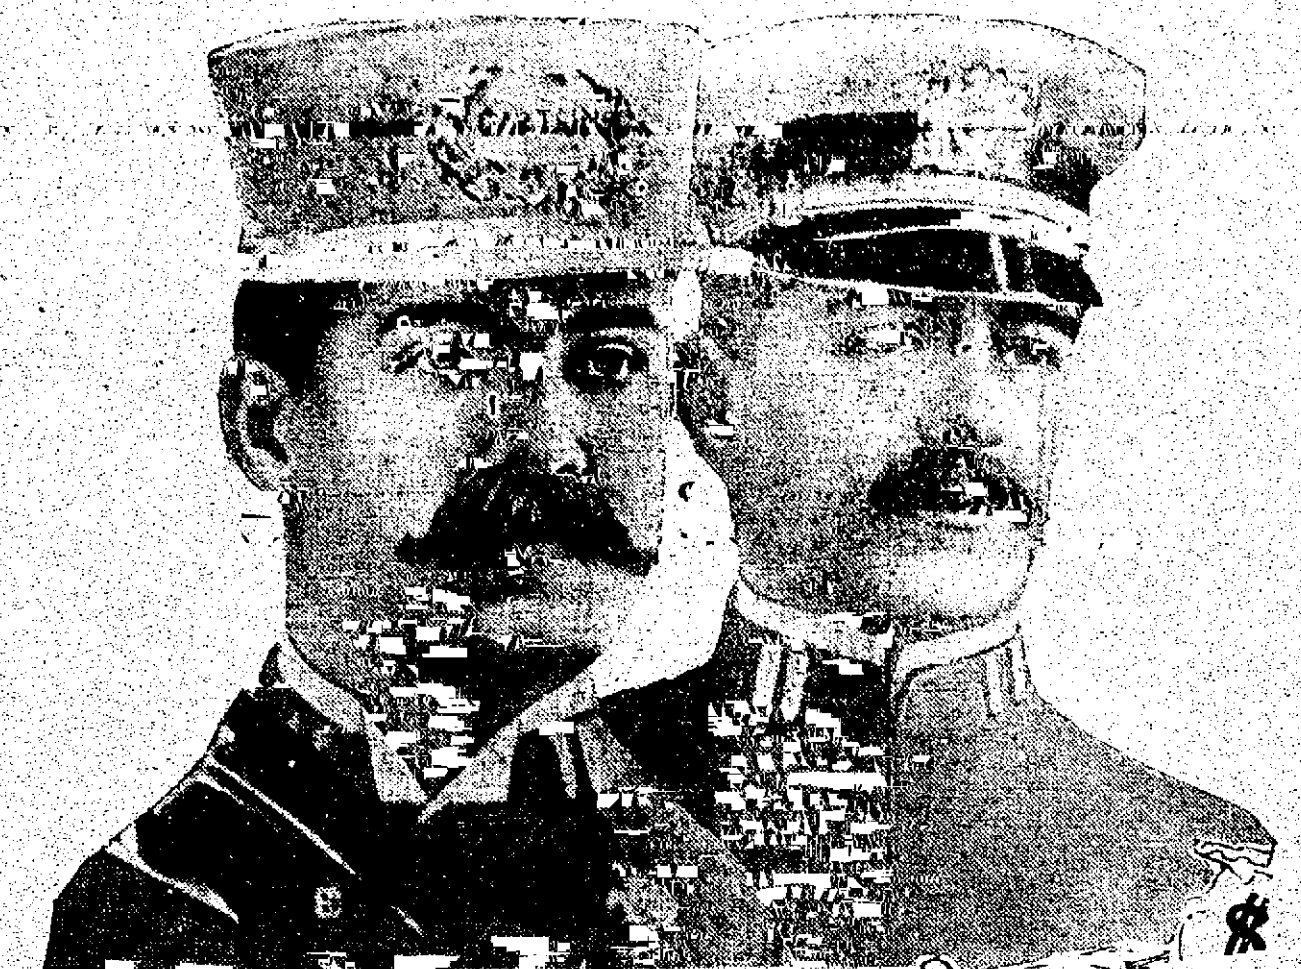

MIDWEST'S SUIT FOR TITLE TO 4,000 ACRES OIL LAND BEGINS TODAY

CHEYENNE, Wyo., May 6.—Hearing of the suit of the Midwest Oil Co. for title to 4,000 acres of oil land near Casper, Wyo., is scheduled to begin in the United States district court here tomorrow. Ernest Knaebel of Washington, assistant attorney general, and A. L. McCormick of Los Angeles, United States attorney for the southern district of California, will assist the local federal officers in handling the case for the government. The company entered upon the land, which later was withdrawn from entry by President Roosevelt. President Taft resigned the land to the company, and later congress enacted a statute under which it was withdrawn again. In the interval between the restoration and the second withdrawal, however, the company had sunk a number of oil wells and made other improvements. The company now seeks to force the government to grant title to the property.

Clean Your Chicken House and Barn; Prevent That Fly!

With the health and fire departments cooperating with the street department, every day will be cleanup day in Colorado Springs for awhile, and it behooves residents to keep their barns, chicken houses, and ashpits clear. The street department is going ahead systematically, hauling away piles of rubbish wherever accumulated by householders. The fire wardens will see to it that dangerous ash heaps are not allowed to stand around, and the health officers also have taken a vigorous hand in the campaign. Personal inspection will be made of barns, chicken houses, etc., so that fly and disease-breeding manure heaps and other refuse are cleaned up. The fly season is rapidly approaching, and in these refuse heaps lies the greatest source of danger. Local residents appreciate the necessity of "preventing the fly," as evidenced by numerous inquiries at the health department and the increased sale all over town of fly traps and other antily devices.

FOUR NEW YORK INSPECTORS GUILTY

Jury Returns Verdict in 38 Minutes After Beginning Its Deliberations

DENVER SHERIFF IS ATTACKED BY CROWD

Rioters Try to Release Woman and Free for All Fight Ensues on Streets

DENVER, May 6.—Sheriff Daniel M. Sullivan was assaulted here tonight when he attempted to arrest Rose Hart, alleged leader of a white slave gang operating between New York and San Francisco. The assault took place in one of the most prominent corners in the city. A crowd of 300 persons was involved in a general fight, which ensued when the attempt to rescue the woman from the officer was made. Alexander Rossi, accused by Sheriff Sullivan of being the leader of Denver's black hand gang, was arrested as leader of the assault. On orders from the grand jury which is investigating alleged police department graft and vice in Denver county, Sheriff Sullivan arrested the Hart woman. Immediately she resisted, and quickly a huge crowd gathered, though the street was "practically" deserted. Several persons caught hold of the woman and attempted to rescue her. Sheriff Sullivan fought off the men and the call for the police was given. Meanwhile the crowd became riotous and the sheriff fought among the men with his fists, succeeding, meanwhile, in holding his prisoner. Defiant Arrest by Sheriff. The woman became loudly insistent that a regular city police officer be called, and taunted the statement to the sheriff that she had "paid them sufficiently," but did not have enough money to pay him. Two plain clothes policemen are said to have been in the crowd, but neither offered any aid to the sheriff. After the sheriff had waged his fight against those who would release the woman, for 45 minutes, a man stepped up and struck the sheriff over the left eye with a pair of knuckles. Sheriff Sullivan staggered back, releasing his hold on the Hart woman, and turned upon his latest assailant. Instantly he was caught from behind, and a man's arm encircled his neck. The crowd was quickly forced aside and the Hart woman and the man who wielded the knuckles disappeared. Two minutes later a policeman appeared. The sheriff accused him of purposely having absented himself, and the officer made no reply. At the same time the police patrol arrived. Makes Charges Against Police. Sheriff Sullivan then asked the police officers to go with him to a nearby hotel where Rossi was arrested. As Rossi was placed in the wagon, the sheriff with a bad cut profusely bleeding, said: "Gentlemen, there goes the leader of the white slave gang and black hand in this city. I've got him, and I've forced the police to make (Continued on Page Two)

Colorado Midland Band Concerts to Begin Here June 8

The Colorado Midland band concerts will start Sunday, June 8, at Stratton park, when the regular summer schedule will begin. The schedule will be the same as last season, except that the Saturday afternoon concert formerly held in North park will be given Wednesday afternoon, at the same place. There will be no Saturday afternoon concert. The band will consist of 30 pieces. A. C. Sweet of Newark, N. J., the new director of the band, will arrive here some time before the opening of the season. Mr. Sweet has had many years' experience directing concert bands in New York city parks, and especially for a number of phonograph companies. He was musical director for Ringling's circus for six years, and has traveled all over the United States and West Indies.

U.S. AND ENGLAND TO SET EXAMPLE LEADERS IN PLANS FOR WORLD PEACE

Numerous Schemes Devised to Promote a Closer Relationship

NEW YORK, May 6.—Before taking up today discussion of the plans for celebrating 100 years of peace among English-speaking nations, the international conference, in session here to arrange the program, tentatively decided to adopt a statement of purposes that would make for a perpetuation of this peace. The celebration, it was stated, was of secondary importance to the consideration of future peace between the two nations as an aspect lesson to other countries now at war or preparing to engage in settlement of differences by force of arms. In this connection it was announced tonight that at the banquet in honor of the visiting delegates on Friday night Secretary of State Bryan would be present and is expected to make an important announcement.

A celebration plan considered was the erection of an international peace monument by Great Britain and the United States, possibly of identical design, the cost to be defrayed either from public funds or through private subscriptions. With the monument plan as a basis, other suggestions were that the ceremonies be held on a chosen day, to the king of England, the president of the United States and by their representatives. Beyond the seas, that other nations and all foreign governments be invited to send delegates to attend these ceremonies, that on the day the ceremonies are held there be a cessation of work for five minutes throughout the two countries and their colonies, and that the occasion be observed by special exercises in the schools.

Educational Plan. It was further suggested that a fitting way to promote the growth of mutual respect and good will between Great Britain and the United States and their colonies would be through the (Continued on Page Two)

ONLY 11 LINES LONG, BILL MOST DRASTIC

California Would Prevent Destruction Foodstuff to Boost Prices

SACRAMENTO, Cal., May 6.—One of the briefest but most far reaching proposed laws which have come before the present session of the legislature was passed by the assembly unanimously today. It was Assemblyman Roberts' "high cost of living" bill. The measure, which is 11 lines long, makes it unlawful "for any person to destroy any animal, vegetable or other stuff in restraint of trade, which are customary food for human beings, and are in fit and sanitary condition to be used as such."

This bill is aimed at the reputed common practice of the dealers of destroying food products in order to keep up the market price, said Roberts. "Shima, the Japanese potato king, who controls the California potato is reported to have thrown thousands of sacks of potatoes into the river when a plentiful crop threatened to push the price down below the point to which his control of the market had enabled him to boost it in previous seasons."

The maximum penalty provided for persons, firms or corporations violating the act is a fine of \$500 or imprisonment for six months.

DEMOCRATS WORK; REPUBLICANS SMILE

Income Tax Bill Is Reached at Night Session of the House

WASHINGTON, May 6.—The overwhelming democratic majority in the house swept today through the free list, bowed over all opposition to free wool, free meats, and other necessities, and passed on to consideration of the hundred million dollar income tax feature of the Underwood tariff bill. Not a dissent was made in the bill as approved by the ways and means committee majority, and when the night session began it was expected that the measure as a whole would be passed as unopposed by the house tomorrow.

SUFFRAGE BILL IN ENGLAND KILLED

Premier Asquith Threatens to Resign If Cabinet Can't Run Affairs

MILITANCY INJURES CAUSE

Vote of 50 Irish Nationalists Seals Doom of Measure By 266 to 219

LONDON, May 6.—The fate of the women's suffrage bill was sealed tonight by the votes of more than 50 Irish Nationalists, who a good deal earlier in the day, a measure which was sought to enfranchise 4,000,000 women, was rejected by a majority of 47. The vote stood 266 to 219.

Whether there is any danger that the present parliament will pass a bill of more limited character may be doubted. Possibly the Nationalists feel that they ally a woman's franchise bill to pass the second reading it will lead to a parliamentary struggle which would not only lead to the dissolution of parliament but also to the ruin of the government.

Nevertheless, the debate tonight proved that the brilliant policy of the suffragists has done the cause great harm, as far as parliament is concerned. The constitution bill of last session was rejected by only a small majority compared with the 100 majority which was under discussion today, and previous bills giving some measure of enfranchisement to women have passed 180 second readings although they never survived subsequent stages.

Debates Are Exciting.

Recent police court disclosures of acts of incendiarism planned by the militants, far surpassing in magnitude anything heretofore attempted, and the burning of St. Catherine's church at Hatcham today undoubtedly decided many to vote against the measure. The figures of the division, showing the defeat of the bill, were greeted with a great cheer from all sides of the house.

The debate which on Monday proceeded with extraordinary apathy, was today characterized by intensely and brilliant speeches. The house was crowded and pervaded with an atmosphere of electrical excitement. The stranger galleries were packed and many anxious faces peered from behind the grille-guarded gallery devoted to women.

Neither Andrew Bonar Law, leader of the opposition, nor A. J. Balfour voted in the division. Among the many (Continued on Page Three)

AEROPLANE HEROES SIGNALLY HONORED

"Langley Day" Is Observed in Washington by Noble Gathering

WASHINGTON, May 6.—Three workers in the field of aviation, one dead, the other two living, were honored here today by the Smithsonian institution, which unveiled a tablet to the memory of the late Dr. Samuel Pierpont Langley, inventor of the first heavier-than-air machine to fly, and presented Langley medals to two Frenchmen, Gustave Eiffel, for his valuable experiments in aerodynamics, and to Glenn H. Curtiss, the young American, who has been a leader in hydro-aeroplane inventions. The French ambassador, J. J. Jusserand, received the medal for Dr. Eiffel.

Another feature of the celebration of Langley day, so called because on this date 16 years ago, Langley's first flight with a heavier-than-air machine, propelled by his own power, was made, was an exhibition of aeroplanes and hydro-aeroplane maneuvers on the Army War college grounds. Assistant Secretary of War Brockbridge was taken up by Lieut. John H. Towers, navy aviator in the Curtiss flying boat.

Dr. Alexander Graham Bell, a recent of the Smithsonian institution, accepted the medals. Dr. John A. Bausch, made an address praising Langley as a most careful scientist and as a man, and then drew aside the flag which covered the bronze tablet.

In accepting the medal on behalf of Dr. Eiffel, the French ambassador spoke of the way in which this country and his had been vying with each other in many other fields of science. The Eiffel tower, designed by the man honored today for his work later in aerodynamics, the ambassador said, was "a thing of beauty because it had become a thing of use," and he referred to experiments in aviation and wireless telegraphy which had centered about the tower as being tasks that heaved to hand France and the United States closer together.

Hanging in the hall where the exercises took place was the machine which made the historic first flight 16 years ago today. Dr. Charles D. Walcott, secretary of the Smithsonian institution, in which position he succeeded Dr. Langley, presided.

SUFFRAGETTES FIRE CHURCH IN LONDON?

Vicar Says "Those Delightful Ladies" Did It; Bomb Is Placed in Front Hotel

LONDON, May 6.—While the members of the house of commons were entering parliament this afternoon to discuss the women's franchise bill, newsboys thrust "extras" at them announcing what seems to be the most destructive work the militant suffragettes have yet accomplished.

St. Catherine church at Hatcham in the southeast of London, one of the finest church edifices in the suburbs, caught fire soon after noon in a mysterious way and was destroyed. The interior of the church, which was built in 1833, was like a seething furnace a few moments after the flames were discovered. The roof fell in half, an hour afterward and the falling masonry seriously injured a fireman. The vicar, the Rev. Howard Francis, when asked about the cause of the fire, said: "I cannot describe it to any other than those delightful ladies."

The vicar visited the church at noon when he noticed three women in the building. He supposed them to be praying. He now believes that they arranged the fire and thinks explosives must have been used to aid in the destructive work.

A mysterious attempt to explode a bomb was made early this morning outside the Grand hotel, opposite Trafalgar square, where the suffrage disturbances took place on Sunday. The hotel was crowded with American tourists. A policeman saw a woman deposit a can with a lighted fuse in front of the door. He abandoned the bomb after extinguishing it by trampling on the fuse and then pursued the woman. He caught one woman whom he supposed to be the culprit and who when brought up in court gave her name as Ada Ward. Investigation proved her to be a night prowler who had often been brought up in police court. She denied planting the bomb, which disappeared while the policeman was chasing her.

WOULD PROTECT THE HERO FROM "MOVIE" VILLAIN

LEAVENWORTH, Kan., May 6.—Patrons of a motion picture show here tonight were momentarily panic-stricken when a "sneak" entered the hall, believing the villain was going to murder the hero of the picture, drew a pistol from his pocket and fired at the figures on the canvas. There was a wild rush for the doors. The man who fired the shot escaped in the excitement. No one was injured.

CHURCH CONFERENCE TO CONSIDER UNITY BELIEFS

CHICAGO, May 6.—When the assemblies of the three branches of the Presbyterian church meet at Atlanta next week a proposal will be made in each assembly that they unite in an expression of the broad general beliefs which are common to all of them.

The form of the proposal was drafted by the Rev. W. S. Plummer, Bryan of this city. A formal expression of the beliefs which are common to the branches of the church in Mr. Bryan's opinion, will provide evidence to the public that the points on which the churches are at one are more numerous and vital than those on which they differ.

NEW TREATY WILL SOLVE DIFFICULTIES, PREDICT JAPANESE

SAN FRANCISCO, May 6.—The Tokyo correspondent of the Japanese New World of this city cabled the paper today that the protest of the Japanese government against the alien land law in California would be based on the contention that by its terms Japanese were placed in a position inferior to that granted to citizens of European nations in California and that the spirit of the "most favored nation" clause of the Japanese treaty with the United States was therefore violated.

Even though the stipulation of the treaty specifically covered the point at issue, the message adds that there is still a strong feeling in Japan that the difficulty can be solved by negotiations between the two governments. Baron Sakatani, mayor of Tokyo, is quoted as having said in an interview:

"The right of naturalization and a new treaty with the United States specifically relating to land ownership will solve the whole question."

Tokio advices to the Japanese American tonight reported that the Japanese government had announced that an avenue toward a satisfactory solution of the California problem still remained, and argued that the people await the issue of negotiations with calmness.

Not Discussed by Cabinet.

WASHINGTON, May 6.—The California anti-alien land bill and its effect on the Japanese was not discussed by President Wilson with his cabinet today at the regular session, but some attention was given to the Mexican problem. Acting Secretary of State John Bassett Moore occupied Secretary Bryan's seat during the meeting.

The president took up prospective appointments in various states, but no announcement was made as to selections. The question of Saturday half holidays for government employees in Washington also was discussed, but no conclusion was reached.

A test of the constitutionality of a California land bill in last session proposed in a resolution introduced in the house today by Representative Britten of Illinois.

The resolution provides that the judiciary committee draw a resolution directing the department of state and the attorney general to take such steps as are necessary toward a judicial test of the California law with a view to its annulment.

J. A. J. Birdsall, "The Arkansas Traveler," Unique Character in This City, Is Dead

J. A. J. Birdsall, well known as "The Arkansas Traveler," proprietor of the cigar stand in the Minnie Exchange building, died early yesterday morning at his home, 1017 South Sawatch street. He was 50 years of age, and is survived by a sister, Mrs. R. L. Hightson of Wells Bridge, N. Y., and a niece, Mrs. Nellie Chamberlain of Victor, Mont. The funeral will be held at 4:30 o'clock tomorrow afternoon from the Hallett & Baker undertaking

J. A. J. BIRDSALL

rooms, under the auspices of Colorado Springs local No. 821, T. L. and the personal direction of Charles Deacon, superintendent of the Union Printers' home. The body will be buried in the plot of the local printers in Evergreen cemetery.

Mr. Birdsall came to this city in 1903 from Little Rock, Ark., and lived at the Union Printers' home for about three years. During that time his health improved greatly and he desired to lead a more active life. With this in view he secured two alligators

EXHAUSTION CAUSED DEATH OF CAPTAIN SCOTT AND PARTY?

WINNIPEG, Man., May 6.—Exhaustion, and not starvation, was the cause of the death of Captain Scott and the men who died with him on his way back from the South pole, according to Lieutenant Grant, a member of the supporting party, which found the bodies of the party in the frozen Antarctic. Lieutenant Grant stopped off in this city for a few hours today on his way to London.

"The end of the party was peaceful," declared Grant. "When we came up to the tent in which the bodies were, all was silent. The snow had drifted about the tent and everything seemed to tell us that the end for them had come. All about us were desolate wastes of snow and ice, and a chill came over our hearts."

Lieutenant Wright of Toronto, a Canadian, who commanded our little party, approached the tent first and lifted the flap. We followed, expecting the worst, and formed in a line group about the mouth of the tent. Captain Scott lay on his back, as if asleep, but outside of his sleeping bag. The bodies of Dr. Wilson and Lieutenant Bowers were in their sleeping bags, and it was apparent that they had been carefully wrapped up by Captain Scott, who evidently was the last to die.

Face Bore a Smile. Lieutenant Bowers lay on his side, exactly as if he were sleeping. Dr. Wilson was sitting in a half-reclining position, his back against the inside of the tent, facing us. He entered on his features were the traces of a faint smile, and he looked exactly as if he were about to awaken from a sound sleep. I had often seen the same look on his face in the morning as he awakened, as he was of a most cheerful disposition. The look struck us to the heart, and we all stood silent in the presence of his death."

Lieutenant Grant, a stalwart young Norwegian, is en route from Vancouver to New York. Thence he will go to London to attend the meeting of the Royal Geographical society on May 23.

"While they did not die of starvation, still all their food had given out, and worse of all, their fuel," he said. "Then it must be remembered that they were experiencing terrible storms, and a man cannot see in any direction when these storms are blowing."

"When we had secured all the equipment and the records of Captain Scott,

known and universally liked for his amiable disposition and his striking originality of character."

He had, for 35 years, continuously been a member of the International Typographical union, and in his 48 years of active life as a printer worked in scores of cities and towns all over the United States and Canada. His memory was keen, and he had a great store of information gathered from his personal experiences.

He attended to his business until the day before his death.

We laid the bodies side by side and said a burial service for them. Then we removed the poles from the tent and covered the bodies over with the canvas. On top of this we built a cairn of snow and ice about 15 feet high. We then took two skis, bound them together in the form of a cross, erected it on top of the cairn, a last memorial to the dead, and left them where they fell."

Grant has in his possession, Scott's diary and records.

FOUR NEW YORK

surprise. Another of the prisoner's lawyers said he expected the verdict was expected. "The atmosphere of the city of New York is surcharged at the present time with a determination to convict," he said.

MAYR'S WONDERFUL STOMACH REMEDY

Will Prove a Genuine Blessing to Every Sufferer of Stomach, Liver, Intestinal Ailments, Appendicitis and Gall Stones.

One Dose Will Like Magic Dispel Years of Suffering

Stomach sufferers are not asked to take Mayr's Wonderful Stomach Remedy for weeks and months before they are relieved. One dose will do more in bringing relief and quick sleeping, and suffering and stand a cure than weeks or months of other remedies of treatment. Mayr's Wonderful Stomach Remedy has accomplished such a great result that no matter where you live this remedy is known for its remarkable cures of Stomach, Liver, Intestinal Ailments and Gall Stones, and grateful people are shouting its praises right in your own community, urging other sufferers to take it. It has prevented many surgical operations. It has saved thousands of lives. Do not confuse this remedy with others just as good. Insist upon Mayr's Wonderful Stomach Remedy. Send for FREE valuable booklet on Stomach Ailments to Geo. H. Mayr, Mfg. Chemist, 154-156 White St., Chicago, Ill., and which will be obtained from druggists everywhere.

For sale in Colorado Springs by Mayr's Pharmacy, cor. Teller and Nevada. The Prompt Pharmacy, cor. Cascade and Buffum, and druggists everywhere.

On Trial Seven Days.

The men were on trial seven court days. District Attorney Whitman and his assistants produced evidence to show that the four plotted to buy the silence of George A. Sipp, a resort keeper, through bribing him to file the state last December, after he had told the aldermanic committee that was investigating the police department that for years he had made monthly payments to the police for protection of his resort. Before Mr. Whitman had a chance to get Sipp to repeat this testimony before the grand jury the hotel man took flight.

Upon being returned to the court's jurisdiction he declared he had been bribed with \$2,000 to leave. The prosecutor's inquiry into his story resulted in the joint indictment of the defendants, then inspectors.

During the trial the state introduced evidence tending to show that graft payments by Sipp reached the defendants, who in turn commanded the Harbison district where Sipp's hotel was located. The tribute was collected for Thomas Walsh, who was captain of a Harbison precinct, and Walsh divided with the inspectors according to his confession.

Graft Amounted to \$42,000 a Year.

The amount of graft enacted was in dispute during the trial but Mr. Whitman in summing up this afternoon stated it was \$42,000 a year in Walsh's precinct alone. Walsh and Sipp were the state's chief witnesses.

The prosecution also contended that besides the Sipp fund, a bribe of \$15,000 was planned by the defendants to furnish bail for Eugene Fox, a policeman, and to provide for his family if he went to jail without equaling.

Fox awaits sentence for bribery, and Walsh's graft collector, his confession terminating the necessity of a fund by the "system" to insure his silence.

The final day of the trial was occupied by the completion of summing up for the defense. Mr. Whitman's argument for the state and the court's charge to the jury. The prosecutor emphasized what he declared was the weakness of the cases of the defense, alibis, character testimony and efforts to discredit some of the prosecution's witnesses on the ground that they were graft takers and graft takers.

The case went to the jury in the early evening.

Other indictments are pending against Thompson, Huxley, Murtha and Sweeney. Against the first three named are two, each for bribery. Against Sweeney are 13, also for bribery. All have to do with alleged acceptance of graft paid for police protection.

Some of the finest examples of electrically equipped coal mines are to be found in Nova Scotia.

Cover YOUR Floors with CREX

You will be delighted with the cheerful atmosphere they bring to your home.

CREX rugs, carpets and runners are made to wear like a floor and as well as the living porch.

They do not hold dirt or dust—they are made to wear like a floor—never curl—not affected by rain or dampness and are reversible.

Every rug and runner has the name CREX woven almost invisibly in the side binding on the rounded edge. (See illustration.) Look for it when you buy.

For sale by best dealers. Avoid imitations. The original and genuine CREX costs but a trifle more than inferior substitutes.

Sight Reading Classes Make Fine Progress

Somebody said once that "Ease is the lovely result of forgotten toil," and the motto would be applicable to the work done by the sight-reading classes that have been maintained at the Young Women's Christian association this year under the direction of Miss Anna Arden.

A casual visitor to the rooms in the DeGraff building while one of the three classes is in progress sees nothing at all out of the ordinary at first in the group of young women singing musical strains out of their music books. The visitor takes it for granted that the pages before the singers are the usual ones, with treble and bass clefs of the conventional type. But if someone shows her a page of the book she sees no familiar little long-tailed quarter and eighth notes, nor lines and spaces, but a strange page looking like nothing in the world but a list of figures that have just come from an adding machine, or the familiar "two times two" tables of childhood's arithmetic.

Some forgotten toll has made these columns of figures familiar to members of that class. Each figure represents one of the syllables do, re, mi, and the singers, looking at them, are able to sing melodiously together. The method used is that of Frank Pamroch, who of all people in this country knows the requirements of sight readers, and what drudgery is obliterated later on it ability to read music easily is gained early.

Several of the young women in the classes have never studied singing at all, and it is hard to realize just how much advantage their familiarity with the principles of sight reading will give them when they do begin their study.

To have a page of music as luminous as a page of reading matter would be to have much added to one's mental resources, and it is what members of these classes will find true of themselves if they continue their study as they have begun it.

Will Entertain Alumnae.

The Minerva society of Colorado college will entertain the Alumnae in the Jungle back of the college, Thursday afternoon at 4 o'clock. All alumnae in Colorado Springs are invited to be guests of the society.

Cemetery Association Makes Plans.

A well attended meeting of the Cemetery Aid association, yesterday afternoon at the home of Mrs. Frank Scott, officers were elected and plans for work were outlined. The association works in cooperation with the city council, and it has been in doing things that were needed that the council could not do. At present it is the plan to furnish the office that is being built at the cemetery and plans to that effect were outlined yesterday.

Mrs. J. W. Atkinson, who has been president for 13 years, resigned yesterday, and Mrs. W. M. Wells was chosen president in her place. Mrs. Atkinson was made vice president, and Mrs. Frank Scott, secretary-treasurer. A musical program was given, and refreshments were served.

Boys Club Was Host.

In response to the invitation given by the Boys club to all the children of Colorado Springs to attend a repetition of the minstrels given Saturday evening with such signal success, about 400 children went to the club Monday evening, and had the time of their lives. The young minstrels and Dockstraders were in their element, entertaining so many of their friends, and the guests enjoyed every minute.

Tonight members of the chorus will be entertained at the club house, and they will enjoy another good time.

Minerva Alumnae This Afternoon.

The Minerva Alumnae will meet this afternoon at the home of Miss Ethel Rice, 528 North Tejon street. A business meeting for the consideration of some important matters will be held at 3:45 o'clock, and all the regular meeting time, 4:15 o'clock. Mrs. William F. Slocum will speak.

Quarterly Tea Tomorrow.

The quarterly tea of the Christian union of the Second Presbyterian church will be held Thursday afternoon, instead of Friday, at the home of Mrs. Bowles, 1617 Washington avenue at 2:30 o'clock. Mrs. W. W. Ranney of Colorado Springs will speak on India, and ladies of the church and their friends are invited.

Nurses Registry Association.

The regular meeting of the Nurses Registry association will be held this afternoon at 3 o'clock at the Y. W. C. A. rooms in the DeGraff building.

Boys Club Will Picnic.

The last meeting of the board of managers of the Boys club was held yesterday morning at the club house, and plans were made for the annual picnic, which will be held Saturday, May 21, at Stratton park. A committee consisting of Mrs. W. W. Williamson, chairman; Mrs. P. P. Lowell, Mrs. Frederick J. Priebe, Mrs. A. G. Sharp, Miss Jeanette Scholz and Miss Ethel Moore was appointed to make the arrangements.

It was found that the sum of \$30 was taken in at the door the night of the minstrel show, and the fact that a number of tickets were sold outside makes it seem likely that the total sum realized from the performance will be a substantial addition to the fund for the putting in of a new furnace.

Memories of a Half Century.

Mr. Samuel S. Wilson gave a dinner at his home, 417 Washington avenue, Colorado City, April 29, to celebrate his sixty-ninth birthday. His guests were some of his old comrades of the Civil war and widows of some who are dead. There were just 32 of the old boys and girls present, and the day was a genuine pleasure. A generous dinner, of which the hardback and baked pork and beans of army fame

formed a part, was served at 4 o'clock. Those who were present were Comrade and Mrs. Love, Comrade and Mrs. Abby Comrade and Mrs. Starr, Comrade Wilson, and Mrs. Morris, Mrs. Treagle, Mrs. Williams, Mrs. Nellie Rule and Mrs. Snodgrass, all widows of old comrades.

Section 2 Today.

Section 2 of the First Methodist church will meet this afternoon at 2:30 at the home of Mrs. George Vaux, 109 South Wabash avenue. Those assisting the hostesses will be Mrs. Horr, Mrs. Roberts and Mrs. Kingsbury.

Hospital Board to Meet.

The local board of Bethel hospital will meet this afternoon at 3 o'clock in the parlors of the hospital.

Will Study Antigone.

At the meeting of the word and literature department of the Woman's club, which will be held in I. O. O. F. hall this afternoon at 5 o'clock, Sophocles' Antigone will be the subject for study. Miss Flansburg will give an introductory talk, comparing the play with other Greek dramas and analyzing its structure, and readings from the text will be given, the parts being taken as follows:

Creon, King of Thebes. Mrs. Robert Kerr, Harmon's son. Mrs. L. B. Grafton, Antigone. Mrs. J. A. Jeancon, Ismene. Mrs. W. A. Epperson, Messenger and Guard. Miss Mabelle Carter, Chorus and Tiresias. Miss Flansburg.

High School Juniors Work on Play.

Members of the junior class of the High school are hard at work in preparation for the play which will be given in the auditorium May 15 and 16. Miss Evelyn Lewis is in charge of the rehearsals, and the cast is a capable one. The play chosen for this year is the force "Mr. Robt," one that abounds in folly and amusing situations, and that is well adapted to the talents of young actors.

The funds realized from the performance will go in part toward the expenses of the junior-senior reception to be given at the Antlers, May 23, and in part to the domestic science department for the purchase of new dishes.

The cast will be as follows: Miss Rebecca Luke (Aunt Becky), Roxie Soper, Katherine Morton (her niece), Helen Hoon, Phillip Royson (her nephew), Donald Graham, Eugene Nifong, Marian Bryant (Mr. Robt), Margaret Moffatt, Patty (the maid), Mary Oldfield, Jenkins (the butler), Grover Kinney. The high school orchestra, under the direction of Prof. F. Stillwell Moore, will furnish music for the evening.

May Festival in Jungle.

The Young Men's and Young Women's Christian associations of Colorado college are planning to make the May festival for this year a particularly pretty and successful event. The festival, which is held annually in College park, is always one of the most popular in the whole year, and since the park is unusually pretty this year, young people are expected to help the sum realized from the performance will be a substantial addition to the fund for the putting in of a new furnace.

A wreath dance will be given by the freshmen girls and prizes will be given for the prettiest wreaths. There will be other interesting features, and the affair will end with a caterer's supper.

Postpone Club Meeting.

The meeting of the Columbian club will not be held this week, but a meeting for next week will be announced later.

West Side Section.

The west side section of the First Baptist church will meet this afternoon at 2:30 o'clock, at the home of Mrs. Brumback, 1027 Colorado avenue.

Miss Carr's Section Friday.

Miss Carr's section of the First Presbyterian church will meet Friday afternoon at 3 o'clock at the home of Mrs. Robt, 216 North Tejon street. The ladies are requested to bring their own needlework.

Meet at Stratton Park.

The ladies of Mrs. Slocum's district of the First Presbyterian church will meet with Mrs. Carr at Stratton park, Thursday afternoon at 3 o'clock.

Kansas Woman Helpless.

Lawrence, Kan.—Mr. J. F. Stone, of this city, says, "My wife suffered for ten years from womanly troubles, during two years of which she was totally helpless. She was examined by many physicians, some of whom gave her up to die. Finally she began to take Cardui, and since then has greatly improved in health. The tonic, strengthening, and restorative effects of Cardui, the woman's tonic, on the womanly constitution, are the most valuable qualities of this popular medicine. Cardui acts specifically on the womanly constitution. Half a century of success proves that Cardui will do all that is claimed for it. Try it for your trouble."

WEDNESDAY, MAY 7, 1913

THE AUTOMOBILE PARADE

Colorado Springs enjoys the reputation of being the biggest little automobile city in the country. It is doubtful whether there is another place in the country of like population where so many cars are owned. There are two reasons for this: the exceptionally good roads hereabouts which make all-the-year driving not only possible but pleasant, and the high average of wealth and prosperity. These are conditions worth boasting of at home and advertising abroad, and the Chamber of Commerce is acting wisely in using them to the greatest advantage in the moving pictures which are being made this week for advertising purposes.

Today moving pictures will be taken of street scenes in the business district and an effort made to show as many automobiles as possible. The local license numbers run above 1,000, and there must be nearly that many cars in town. The parade will last only a few minutes, and extend only two blocks on Pikes Peak avenue, merely long enough for all of the cars to pass before the moving picture machine. Every owner of a car in the Pikes Peak region ought to make an effort to have his machine in line at the appointed hour, 10:30 o'clock.

Since last Sunday moving pictures have been made of the scenic attractions and other interesting places and objects hereabouts, and the work will continue until everything has been photographed which would show the life of the Pikes Peak region. Street scenes, people coming from the churches and the schools, students entering and leaving the buildings at the College, scenes at the golf club, views in the parks and around the Springs and Manitou, the scenery along the Short line and the Crystal Park road, and in the Garden of the Gods and various other resorts. In fact, everything which, when thrown on the screen of a moving picture theater, will convey to the audience an adequate idea of the Pikes Peak region, all have been or will be permanently recorded on the films. The advertising advantages of this plan are unlimited, for the pictures will be seen by many times the number of people that could possibly be reached in any other manner.

THE FATHER OF AVIATION

The unveiling of a tablet in memory of the late Prof. S. P. Langley, at the Smithsonian Institution in Washington yesterday, recalls a tragic chapter in the history of the invention of the aeroplane. For it was Langley, and not the Wright brothers as is generally supposed, who actually discovered the principles governing the art of flight and who built the first successful aeroplane.

Prof. Langley was a scientist of high attainments and for many years director of the Smithsonian Institution. He conducted a long series of experiments with kites, aerodromes, etc., to discover the principle of flight with a heavier-than-air machine, and his work was considered so valuable that Congress cheerfully voted the money with which to carry it on. Langley built an aeroplane with a steam engine to furnish the motor power, and on May 6, 1896, seventeen years ago yesterday, it actually flew more than a mile over the Potomac river.

There was no doubt then that he had hit upon the right principle, but innumerable technical difficulties arose which prevented the repetition of the first success. Chief of these was the engine, for the gasoline motor had not been perfected, and Langley was compelled to rely on a heavy steam engine. It was through reading of his experiments at this time that the Wrights first became interested in aviation and began their own work.

As time passed and Langley failed to make good the newspapers began to ridicule his work and the public to look upon him as a second Darius Green. Congress gave him money, for one more experiment. He built another aeroplane which was launched from a platform on the bank of

the Potomac near Washington. The machine fell into the water with a splash. It was fished out and has reposed ever since in the Smithsonian Institution. Aviation experts declare that its failure was due entirely to a trifling mechanical defect which could have been easily corrected, and that the machine would fly today if properly tested.

But the ridicule to which he was subjected and the flat refusal of Congress to grant further aid broke Langley's heart. He died soon afterward without having made other experiments. Meanwhile the Wrights were working on their gliding machine, and two or three years after Langley's death made their first actual flight in a motor-driven aeroplane.

The Wrights have always acknowledged their indebtedness to Langley, and the scientific world today honors him as the father of aviation. But it was his misfortune to be a few years ahead of his time, and it was the good fortune of the Wrights to profit by his experiments and to do their own work just at the time when the gasoline motor had been made a practical success.

DIVISION OF STATES

Every now and then somebody proposes to divide the big Western states into smaller states for the purpose of getting greater representation in the Senate. The plan has frequently been suggested in Texas, which has an area of 265,000 square miles, or considerably more than that of Germany. Texas would make five states each the size of New York, and thus would have ten senators instead of two as it now has. Or it would make three states the size of Utah or Idaho. But there is no probability of the plan ever being carried into effect, for Texans are intensely proud of the vast area of their state, and more especially of the fact that it was once an independent republic.

Now a member of the California legislature has introduced a bill for the division of that state by creating a new one of the region south of Tehachapi Pass. This would be an unequal division, for about three-fourths of the area of the present state would remain in the northern portion, but it would effectively separate the semitropical region of citrus fruits and palm trees from the northern portion where both climatic conditions and products are wholly different.

But California, too, is proud of its area, for it ranks second among the states with a total of 158,000 square miles. It is a safe assumption that it will remain one state to the end.

OPEN-PARLIAMENT

[All letters intended for the Open Parliament must bear the name and address of the writer, not necessarily for publication, but as an evidence of good faith. Controversial letters will not be published without the signature of the writer. Communications for this department should be limited to 400 words and should be free from personalities.]

THE I. W. W.
 To the Editor of The Gazette:
 Scientific management, efficiency, commission form of government, machinery, etc., get more work intelligently done with less labor. A stone cutter works eight hours for \$3 because he is organized; he doesn't care much about fighting for a pick-and-shovel man's bettered condition—what he wants is better conditions for number one. He doesn't seem to comprehend that the unskilled workers envy his eight hours at \$3 and quality for that job, displacing him or reducing his wages. Perhaps clay or cement products cheaply produced by unskilled unorganized workers displace his work. He, then, being without funds, must seek other work in a field now greatly oversupplied.

Let me go back to the same under his circumstances. As Paulsen ticket can be afford—let's the side door for the kids for him. He is now a vagrant, a hobnob. He joins the I. W. W. because they accept any worker, black, yellow or white, and how to shorten the hours of labor sufficiently to give all the unemployed a job. In order to organize properly, and get these results, free speech and education is necessary. Denver would not allow them free speech on the street which is the only possible place to reach the workers. So these I. W. W. go to Denver by boxcar, etc., and fill the jails to break this hateful ordinance.

As taxpayers we are supporting a police department which jailed 32 of these men for being hooligans, hoping to discourage this I. W. W. movement. You and I are paying the bill to defeat our own working class movement. If we had the same self-respect that these I. W. W. members have we would not stand for it. The papers say there are five prisoners in jail. Would they have crossed the color line, uttered false and hard-boiled lies for a principle of free speech? I hope I have as much self-respect as a hobo or those 30,000 transport workers, the textile workers, especially at Little Falls, lumber and construction workers and the nests who belong to the great movement. I excuse our papers attitude only by saying surely they are not informed or else they think we are not.

A. E. L. STONECUTTER,
 Colorado Springs, May 6.

FROM OTHER PENS

GIVE MEN A CHANCE.
 From the Kansas City Times.
 Lester E. Ward, one of the greatest of American thinkers on social questions, died in Washington last week at an advanced age. It is here desired to call attention to a striking summary of his social philosophy. In his "Applied Sociology," one of the great books on the subject, Ward wrote:
 "There is no need to search for talent. It exists already and everywhere. The thing that is rare is opportunity, not ability. The fact that so many struggle up out of obscurity does not so much mean that they possess superiority as that they happen to be less inextricably bound down than others by the conventional bonds of society. And those who

have succeeded in bursting these bonds have usually done so at such an immense cost in energy that their future work is rendered sterile and well-nigh valueless."

It is on this theory that talent is widespread, but that it often is repressed by unfavorable opportunity, that the progressive movement at least in part is founded. It is the fundamental belief of democracy.

EARNING A LEGACY

From the Pittsburgh Dispatch.
 The world might be better off if there were more conditional bequests on the line marked out by that Minneapolis capitalist who left \$5,000 to a nephew in Los Angeles provided the young man first earn by his own industry and save \$1,000.

If this qualification were appended to the disposition of many of the millionaire estates we would probably have fewer examples of spendthrifts wasting substance in riotous living. The self-discipline and energy required to earn and save a proportionate sum before receiving the legacy would teach the value of money and the joy of achievement. As it is, it is a case of "come easy, go easy." Millions are thrown into the laps of persons who have no idea of the value of money, no appreciation of the responsibilities of wealth, either to themselves or their fellows. Instead of being of advantage it is too often a handicap preventing them from ever developing their own possibilities. The idea of making demonstrated industry and thrift a preliminary condition for the inheritance of millions would be a good thing all around, for the legatee and for the common welfare.

ARE THE JAPANESE MONGOLIANS?

From the Philadelphia Inquirer.
 Apparently the Japanese intend to test the constitutionality of the California statutes, and the proposed law preventing them from owning or leasing real estate for agricultural purposes on the ground that they are not Mongolians.

This brings up questions of racial status that the courts will have some trouble in deciding. To establish who is a Mongolian and who is not may prove difficult, even if it is decided what is the essential meaning of the term Mongolian. The term has been used in state and federal statutes primarily to keep out the Chinese or limit their activities in this country, and these were passed at a time when there was not the slightest fear of a Japanese invasion.

Unfortunately for the courts when they come to decide this matter they will find less fundamental evidence one way or another than many suppose. Ethnology is not an exact science and the early history of the Japanese is veiled in mystery or ignorance. Their own accounts are largely mythical, and it is hard to see how it can be proved for their benefit that they are Aryans or of any other branch of the human race. Probably they are of mixed ancestry.

It is probable, however, that the courts will decide this matter not on scientific grounds or on technicalities, but on the obvious meaning or intention of the statutes at the time they were passed. California wants to stop the activities of Japanese immigrants who are rapidly acquiring the agricultural lands of the state, and will leave no stone unturned to accomplish this purpose. And this is certain to be a cause of much trouble to President Wilson.

NEAR 10-7 NATURE

ONE GUESS.
 From the records of Boone county, Neb.
 Grapes vs. Grapes; divorced granted.

TRY TO HISS THIS.
 From the Cosmopolitan.
 "You hiss" he missed.

SIGNS OF THE TIMES.
 From the Chicago Tribune—on-Aton.
 In scribbles, Stratford-on-Avon. "Rolls changed after every occupant." In Vancouver. "This restaurant will open soon with private rooms for ladies with marble fixtures." In Tokio. "Fresh and pure milk extracted out by veterinarians." On Island avenue. "Imported baby rattlers, 21 cents." In a local book store. "The Negro Problem reduced to 10 cents." On State street. "Shirts and underwear cut deep for Saturday."

Dangerous Prophecies

By RUTH CAMERON.

"It is when we are young that we say, 'I shall never' and 'I shall always'—not knowing that we are only time's atoms in a crucible of incredible change. An old man scarce dare say 'I have never,' for he knows that if he searches he will find probably that he has. 'All—all is a change.'—Booth Tarkenton.

"There's one thing I'll never do," I heard a young girl say the other day, apropos of a friend's marriage to a young man with more prospects than salary. "I'll never marry a man who is getting a cent less than \$40 a week."

If it were possible for me to lift the veil that lies across my future, I would not do it. I believe most of us are happier knowing just the present, but I must say I would like to be able to look 10 years ahead into that girl's future, and see if anything happens to that cocksure assertion of hers.

I suppose you thought when you read that opening sentence that I was going to use it to launch myself into a tirade upon the extravagant matrimonial standard of the girl of today. Not at all. Of course the remark did suggest that line of thought. But as England's great story-teller so often says, "That's another story." What it set me to thinking most acutely was this: that it's a mighty risky business to prophesy what we will or will not do under this sort of condition.

Is there anyone among my readers, I wonder, who is not doing at least one thing which he has said he never would?

I don't know.
 Of course there's a chance that this cocksure young person may stick to that vow. But I think there's every bit as good a chance that she won't—perhaps better.

I well remember an energetic young woman who used to do herself because her newly-married friends were paying \$35 and \$36 a month for rent. When she was married, she used to say, she would never pay more than \$25. She is now paying \$40 a month.

Another young business woman who knew too well the danger that comes when they go serene, away for the whole summer and leave their husbands to shift for themselves, was very fond of saying, "When I'm married I'll go away with my husband on his vacation, and perhaps I'll stay a week or two more, but I'll never go off for the whole three months. I don't think it's right."

For the first two years of her married life she was true to that "never," then the babies came, she wanted the country air for them, and now she goes away in May and comes back in October.

Telegraph Operators

By GEORGE FITCH,
 Author of "At Good Old Siwash"

A telegraph operator is a man with a little, flexible wrist, and an enormous capacity for going without sleep. Most telegraph operators are employed by railroads. Their duties are to send and receive messages, sell tickets, make out reports on carload lots, set out spotlights, handle baggage, deliver express and keep the railroad property in a neat and orderly condition. After a telegraph operator has done these things a few years, he

While seventeen passengers are pounding frantically at the ticket window.

Knows more about the railroad than the president, and has to be promoted in order that the company may make use of his knowledge. Most railroad officials were once telegraph operators.

There are two kinds of operators—day operators and night operators. The latter work all night and play ball all day. A night operator can go along without sleep at all, except what little he is able to snatch in the depot while the train dispatcher, a hundred miles away, is trying to wake him up.

The telegraph operator in a small station leads a carefree and romantic life, communicating over the wires with the whole railroad system, and calling for help when bound and gagged by train robbers, by pounding the telegraph key with his ear. The small town telegraph operator is the biggest hero in town to the small boy, except the man who plays the clown in the band, and can always get most of the work around the station done. He is free of charge by boys who hope to be able some day to receive long messages. With an important air, while the passengers are pounding frantically at the ticket window.

If the operator becomes very skillful he gets good wages, and goes to the big telegraph offices, where he leads a life of toil. If he remains a kid in a small station, he gradually learns the other branches of railroading, and becomes station agent or superintendent. It is the ambition of every telegraph operator to so rise that he may some day be able to look down upon a train dispatcher and tell him to go to and have a ride in his new automobile.

Boxcar Thieves Caught by Posse

OGDEN, Utah, May 6.—Three boxcar thieves were captured at 10 o'clock this morning by an armed posse on a Union Pacific special train responding to a call for aid from the conductor of a freight train stalled at Wythe, on the boundary line between Utah and Wyoming. Conductor William Russell discovered that thieves had entered one of the cars of his train and were at work breaking open boxes of merchandise summoned help from Evansville. The bandits were taken by surprise and ordered out in the glare of many fuses which had been lighted to guard against escape. While being handcuffed the desperadoes cursed and threatened their captors. The thieves are supposed to be members of a desperate gang which has been successfully operating in this region.

DISMISS SUIT TO FORCE REDUCTION OF RATES

DENVER, May 6.—The state board of railroad commissioners today dismissed without prejudice the suit recently brought to force Colorado railroads to reduce passenger fares. The board held that the suit should have been brought against specific roads, whereas it was a general petition applying to all railroads in the state.

Read "Polly of Lady Gay Cottage," by the author of "Polly of the Hospital Staff" price \$1
HARDY'S
 16 N. Tejon

IN THE EARLY DAYS

THIRTY YEARS AGO TODAY

MAY 7, 1883.
 J. F. Humphrey, Dr. Corry, A. Sagerdorff, D. B. Fairley, T. J. Horn and D. W. Robbins were elected members of the school board.

F. W. Beebe, proprietor of the Beebe house at Manitou, committed suicide in Denver.

An editorial in The Gazette commented as follows on woman's suffrage: "Tifty ladies voted yesterday at the school election. It created no commotion and was done decently and in order. We think none of them sacrificed any dignity. Still this is not a test of the practical effect of woman's suffrage. When there are lady office-seekers making a personal canvass for office we shall see some of the beautiful results."

Chancellor McDowell of Denver university spoke at the Y. M. C. A.

Judge Belford and C. S. Thomas were in the city on business.

COMMISSIONER DENIES SLAVERY IN PHILIPPINES

WASHINGTON, May 6.—The conduct of Secretary Worcester is a new evidence that prompt action should be taken to relieve everyone of the members of the Philippine commission from the governor-general down, wrote Manuel Quezon, resident commissioner of the Philippines, in a protest filed today with Secretary Garrison against Mr. Worcester's statement that slavery exists in the islands. Resident Commissioner Barnshaw of the Philippines joined in the statement.

Mr. Quezon's letter says that if slavery exists in the Philippines the Philippines commission alone is responsible for the lack of proper legislation "to punish this inhuman, savage crime," and adds:

"Nor until recently has this question of slavery been brought up before the American people, that the Philippine assembly as representing the capacity of the Filipinos for self-government is a failure."

Governor Forbes also gave out a statement similar to Mr. Worcester's.

Senator Receives a Double Salary

WASHINGTON, May 6.—Senator Nathan Goff of West Virginia, will receive aside from his senatorial salary of \$7,500 an additional \$7,000 as the full pay of a retired federal circuit judge making his compensation during his term in the senate equal to the supreme court. Comptroller of the Treasury Tracewell today granted the senator's application for salary as a retired judge under the law authorizing full pay to any federal judge, who having reached the age of 70, resigns after 10 years of service on the bench. The comptroller held that a retired judge performed no judicial duty, and consequently did not hold a "position" within the meaning of the statute prohibiting a government employe from drawing salary from two government positions. He pointed out that such seemed the conclusion of the senate in admitting Judge Goff in view of the constitutional provision that no person holding other offices under the United States shall be a member of either house of congress.

SECY. LANE CONSIDERS UNCOMPANIRE PROJECT

WASHINGTON, May 6.—Colorado irrigation works, especially the Uncompagnire project, were taken up for consideration today by Secretary Lane at his conference with the Water Users association. The information thus far developed at the conference has been of great value to Secretary Lane who said today that it would enable him to deal with the subject of irrigation in all the projects with first hand and impartial knowledge. Former Representative John A. Bell of Colorado, made the principal presentation today of the affairs of the Uncompagnire project.

FRANCO-ITALIAN COURT FINDS AGAINST LATTER

THE HAGUE, Netherlands, May 6.—The Franco-Italian court of arbitration dealing with the seizure by Italian warships during the Turco-Italian war of the French steamers Carthage and Manouba decided today that Italy was in the wrong and condemned the Italian government to pay \$32,000 and \$300 in the respective cases.

The Carthage was seized on January 16, 1912, on suspicion that she had contraband goods on board. She was released four days later on the request of the French government.

The Manouba was seized January 19, 1912, while she was carrying a Turkish medical mission. She was allowed to proceed on her voyage, after landing her Turkish passengers.

WILLS THAT HIS LIBRARY BE DIVIDED BY WEIGHT

NEW YORK, May 6. Louis Ash, a cigar-maker who died recently, provided in his will that if his daughter could not agree on the equal division of his library, the books should be weighed, and thus equally apportioned. The odd provision is one cited by Mrs. Amanda Chase, who, declaring that her father was not of sound mind, is contesting a codicil to the will which gives \$55,000 to Mrs. Nathalie May, another daughter, cutting off Mrs. Chase.

COLDER WEATHER TO FOLLOW WARM SPELL

WASHINGTON, May 6.—The hot spell is about to be broken by a cold one. In the language of the weather men there will, within the next 24 or 48 hours be a general change in the distribution of atmospheric pressure over the Atlantic ocean and the North American continent. This will cause a general reaction to lower temperatures over the Atlantic states, the Ohio and Mississippi valley and lower lake region.

The new wireless record is 5,000 miles. The naval station at Newport caught messages from Argentina.

YOUNG MAN DIES AS RESULT OF FOUL PLAY

SAN FRANCISCO, May 6.—Joseph B. Queen, a nephew of Richard B. Queen, founder of a patent medicine company, died today at an emergency hospital of injuries received at unknown hands. He was found Sunday morning with a fractured skull but unable to account for his injuries. He is believed to have been beaten and robbed by footpads.

Proper Spring models, at this store, for instant relief from that heavy, rusty winter suit.

The new ones are \$15 to \$35.

Perkins-Shearer Co. HALL FORMALLY ACCEPTS OFFICE OF CITY ATTORNEY

Former Mayor Henry C. Hall has formally accepted his new post as city attorney under the McKesson administration, in a letter addressed to the council. He requests the council to appoint John L. Bennett, an attorney in his office, as his assistant, and this probably will be done at the regular council meeting this morning. The city will not by this arrangement incur any additional expense for its legal work.

HUMAN PATROL WAGON? SEE SERGEANT HENDERSON

Sergeant Henderson of the police department has had a new role thrust upon him, and he does not like it at all. Monday night the police arrested a Sadie Davis, of 221 South Corona street, for drunkenness, and brought her up in police court yesterday morning. She said that she had taken whiskey for asthma and had been unable to get to her home. The court accordingly released her.

Yesterday morning the police found her in Monument Valley park, intoxicated, lying with a quart bottle of whiskey nearby. She was brought to the station, and the police carried her for a distance of about half a block to a block. The woman was put in the county jail, and will be brought up again in court this morning.

Hooray! Baby To Rule the House

No Longer Do Women Fear The Great-
est of All Human Blessings.

It is a joy and comfort to know that those much-talked-of pains and other distresses that are said to beset child-bearing may easily be avoided. No woman need fear the slightest discomfort if she will fortify herself with the well-known and time-honored remedy, "Mother's Friend."

This is a most grateful, penetrating, external application that at once softens and makes pliant the abdominal muscles and ligaments. They naturally expand without the slightest strain, and thus not only banish all tendency to nervous, twitching spells, but there is an entire freedom from nausea, discomfort, sleeplessness and dread that so often leave their impress upon the babe.

The occasion is therefore one of unbounded, joyful anticipation, and too much stress can not be laid upon the remarkable influence which a mother's happy, pre-natal disposition has upon the health and fortune of the generation to come.

Mother's Friend is recommended only for the relief and comfort of expectant mothers, thousands of whom have used and recommend it. You will find it on sale at all drug stores at \$1.00 a bottle. Write to-day to the Bradford Regulator Co., 130 Lamar Bldg., Atlanta, Ga., for a most interesting book on this greatest of all subjects, motherhood.

EL PASO-C. K. & N. SUIT SETTLED; MINE MERGER PROBABLE

An option on the control of the stock and lease rights on all ground below the tenth level to the Roosevelt tunnel are the considerations given by the C. K. & N. Mining company to the El Paso Consolidated Gold Mining company, in settlement of the suit of the El Paso company for \$1,000,000 in apex claims. The suit was settled last week, and additional considerations were given the C. K. & N., in that the plaintiffs in the suit agreed to end all litigation between the companies.

The suit was settled for \$1,000,000, 35 per cent.

The terms of settlement will probably mean that C. K. & N. will be included in the proposed merger of Cripple Creek properties to be taken over by the Colorado Mines, Railways and Utilities company, in which El Paso is a leading factor. K. MacDermid, secretary-treasurer of the C. K. & N., said yesterday that the company probably will be in the merger, but that it is up to the El Paso to buy the stock first.

The suit of the El Paso was filed on the grounds of infringement on apex rights. Negotiations for settlement of the suit were carried on by M. B. Rapp, a heavy loser of the C. K. & N.

The C. K. & N. company is headed by Miss O. L. Granfield, one of the few women presidents of active mining companies in the country. She was elected at the annual meeting held in this city recently. The controlling interest in the company is owned by Miss Granfield and her mother.

Issue Statements as to the Proposed Sanatorium for Colored Tuberculars

The trustees of the proposed national tuberculosis sanatorium for the colored have requested The Gazette to publish the following statement, together with one from Dr. H. B. McCorkle:

Trustees' Statement.

Colorado City, Colo., April 27, 1913.

To all whom it may concern:

This is to certify that the undersigned trustees of the National Tuberculosis sanatorium for colored people.

Be it known that we have nothing to do with Rev. Mr. Stephens in the above matter.

We pledge ourselves to give a statement to the public at any time called upon for all money donated to us.

All money received or donated will be forwarded to Mr. W. N. Armstrong, cashier of the National Bank of Colorado City, Colo.

We know nothing about any of the money collected by the Rev. Mr. Stephens and his solicitors, nor what disposition was made of it.

It is our sincere intention to deal honorably with all, God being our helper.

Any information relative to the above will be given at any time by calling or addressing the Rev. Mr. Braxton or C. R. Robinson, 1117 Colorado avenue, Colorado City, Colo.

We make this appeal to the good people for a noble cause.

Dear friends, there is no place for a poor, colored tubercular to lay his head, is the reason we make this appeal for aid in building a sanatorium for them.

Hoping this will meet the approval of all who read it, we remain,

Sincerely yours,

REV. C. H. BOONE,
DR. R. S. GRANT,
W. R. SARAH BENNINGTON,
REV. BRAXTON,
C. R. ROBINSON.

Trustees.

Dr. McCorkle's letter follows:

To Whom It May Concern:

This is to certify that the Rev. W. R. Stephens (colored) has no right to solicit funds for the buying of the Nordrach sanatorium, nor any of the other lands, nor any property, real or personal, in any way connected with the Nordrach sanatorium, which expired the first day of April, 1912. On this he never paid me one dollar, and his rights are all forfeited on the first day of April, 1912.

DR. H. B. MCCORKLE.

**Prominent Members to
Attend State Convention**

A number of prominent men will attend the state council of the Dr. O. U. A. M., which meets in this city next Tuesday and Wednesday. Among these will be: Judge Laman L. Helm, national representative; R. A. Crossman, state secretary; C. W. Varman, state councilor; Judge A. H. Dickens; H. S. Beamer; J. G. Jennings; James F. Morrow; H. Eddy; Wilbur P. Cannon; William T. Chamberlain; C. A. Creighton; T. A. Hulen and Charles H. Peters.

The local representatives will be: W. E. Price, William L. Spencer, C. W. Stevenson, C. W. McCoy and H. G. Spencer. Colorado Springs will be represented on the committees as follows: Judiciary, E. A. Banta, chairman; credentials, I. M. Boyd; finance, A. B. Risk, chairman. The local lodge has 11 officers on the state council.

Justice Dunnington yesterday bound Harry Decker over to the district court in the sum of \$300 on a charge of burglary and larceny. Decker was committed to the county jail in default of bond. He is charged with stealing a set of harness.

Charles Vinson, colored, whom Justice Dunnington Friday sentenced to 60 days in the county jail for vagrancy and then suspended the sentence with the provision that he leave town at once, was rearrested yesterday afternoon by Constable Payton. Dunnington ordered Vinson sent to jail to serve out his sentence. Another negro, who was within Vinson at the time of his arrest, was released after an investigation.

Elizabeth Behrendt, who runs a rooming-house on West Huerta street, was arrested yesterday by Constable Dolman for assault on a roomer, James Kelly, whose face she scratched with a bunch of keys. She was fined \$1 and costs by Justice Dowdy.

CASCARET'S CLEANSER LIVER AND BOWELS.

The millions of Cascaret users never
have Headache, Constipation, Bil-
iousness or Sick Stomach

It is more necessary that you keep your Bowels, Liver and Stomach clean, pure and fresh than it is to keep the sewers and drainage of a large city free from obstruction.

Are you keeping clean inside with Cascarets—or merely forcing a passage every few days with salts, cathartic pills or castor oil? This is important.

Cascarets immediately cleanse and regulate the stomach, remove the sour, fœtid and "rotten" gases from the liver and carry out of the system the constipated waste matter and poison in the intestines and bowels.

No odds how badly and upset you feel, a Cascaret tonight will straighten you out by morning. They work while you sleep. A 10-cent box from your druggist will keep your liver clear, stomach sweet and your liver and bowels regular for months. Don't forget the children—their little insides need a good, gentle cleansing, too.

LITTLE "GLEN" TRIES TO WHIP NOTORIOUS FIGHTER

Red Maguire, one of the best "scrappers" in town, and a standing argument against all liquor cures, is surprised. That puts it only mildly, for Red is more than surprised. The person who surprised him is William Glendinning, and as a result, Glendinning is locked in the county jail, and Maguire is in the main cage.

Glendinning was brought into the city jail shortly before 4 o'clock yesterday afternoon, drunk. This is his first offense in months, and he is in good condition. He struggled and fought with the officers who searched him, and expressed his opinion of them freely. It was brief and uncomplimentary.

"Glen" was put into the main cage, and a little later, Red Maguire, Jack Hees and Mike Redmond were brought in, all drunk. Maguire was ready for a fight. The three of them were put into the main cage, and a minute later, Glen, not yet out of his fighting humor, started in on Maguire, twice his size, and with about 100 times his fighting ability.

"Glen" got in two or three good blows on Red, and the latter was just getting ready to go into action when police officers interfered and moved "Glen."

COMMITTEE WANTS DATA FROM MANUFACTURERS

The committee in charge of Home Industry week, which is being arranged by the Chamber of Commerce to boost local products, is anxious to get all data possible from the manufacturers to be used in the statistical publicity campaign that will be a part of the general idea. Blanks have been sent out, and all the returns will be held confidential and used only in a general way to show the size of the different industries.

The committee on window displays, headed by J. R. Lowell, is receiving a general response from the merchants, and it is expected that most of them will arrange special displays.

News of Local Courts

THREE DIVORCES GRANTED

Three divorces were granted in the county court yesterday, two for non-support and one for desertion. The first was granted to Mrs. Annie Freeman from Zelene Freeman, and the plaintiff was allowed to take her maiden name of Heaf. They were married June 26, 1911, in Pueblo, and Mrs. Freeman testified that her husband deserted her one week after the ceremony.

Mrs. Minta Doss was granted a divorce from William O. Doss on the ground of non-support, and Mrs. Elma Worster from J. W. Worster for a like reason. Mr. and Mrs. Doss were married October 22, 1902, in Silverton, Colo., and Mr. and Mrs. Worster, in June, 1910, in Colorado Springs. None of the three suits was contested.

Justice Dunnington yesterday bound Harry Decker over to the district court in the sum of \$300 on a charge of burglary and larceny. Decker was committed to the county jail in default of bond. He is charged with stealing a set of harness.

Charles Vinson, colored, whom Justice Dunnington Friday sentenced to 60 days in the county jail for vagrancy and then suspended the sentence with the provision that he leave town at once, was rearrested yesterday afternoon by Constable Payton. Dunnington ordered Vinson sent to jail to serve out his sentence. Another negro, who was within Vinson at the time of his arrest, was released after an investigation.

Elizabeth Behrendt, who runs a rooming-house on West Huerta street, was arrested yesterday by Constable Dolman for assault on a roomer, James Kelly, whose face she scratched with a bunch of keys. She was fined \$1 and costs by Justice Dowdy.

416 GIVEN WORK IN APRIL; 8-HOUR LAW GENERALLY OBSERVED

During April 416 people were given work through the Colorado free employment office here, of which W. C. Daily is superintendent. Of this number 318 were men and 88 women. This is the best report of the year and compares favorably with that of the same period in 1912, when 400 people were given work through the office.

The only reason we did not give more positions is that we couldn't get the men to fill them," said Daily. "Every man who applied was placed, and we had a number of unfilled calls."

That the women's eight hour law is being generally observed in the city is Mr. Daily's opinion. He said:

"The larger establishments are complying with the law in good shape, and although we have had a number of anonymous letters telling of small establishments breaking the law, we have found few who persistently work the women more than the regulation day."

EDITOR AND MANAGER OF COLLEGE TIGER ELECTED

Fred M. Gerlach and Harold W. Gregg, members of the junior class at Colorado college, have been elected editor-in-chief and business manager, respectively, of the Tiger, the college semi-weekly newspaper, for next year. Both have been connected with the paper during the year in the capacity of assistants. The election was made by the Tiger board of control, which is composed of students and members of the faculty. The remainder of the staff will be chosen next week.

Ceiling Collapses and Teachers Have Narrow Escape at High School

Mrs. Ada R. Collins, head of the High school commercial department, and Miss Jean Raber, her assistant, had a narrow escape from injury yesterday afternoon, when they were struck by plaster which fell from the ceiling of the commercial room. The teachers, who were at work alone in the room, escaped the main mass of plaster which fell where the students sit during class hours. The entire ceiling was dislodged, and will be repaired at once. Neither Mrs. Collins nor Miss Raber was injured.

Scholton New President of Printers Local Union

COLLEGE GRADUATE TO GIVE READING TOMORROW

Phileas Rice, a graduate of Colorado college, and who is familiarly known here as "P. Rice," will give a reading at Perkins hall tomorrow night for the college students. Rice now is connected with the Redpath Locomotive bureau, and is considered one of the leading readers in the country. While in college his work as reader for all student affairs was well known. He is a cousin of Governor Rice, probably the best hurdler the college ever produced.

His reading tomorrow night will be from Dickens' "Great Expectations."

Mrs. Vest Felt Like Crying

Wallace, Va.—Mary Vest, of this place, says, "I hadn't been very well for three years, and at last I was well. I could not stand on my feet, I had such pains. I ached all over. I felt like crying all the time. Mother insisted on my trying Cardui. Now I feel well, and do nearly all my house-work." No medicine for weak and ailing women has been so successful as Cardui. It goes to the spot, relieving pains and distress, and building up womanly strength in a way that only surely please you. Only try it once.

This Store Now Opens 8:30 a. m. and Closes 6 p. m.

Mandolin Quintet Is Reorganized; Highly Praised by Magazine

The Gibson mandolin quintet of this city has been reorganized for the season under the direction of Leon E. Dier and the management of J. E. Patterson. The August issue of "The Cadenza," the leading mandolin magazine of the United States, recently devoted a complete page to the local quintet, complimenting its members on the class of music they play and their work generally.

The organization is orchestrated under the Gibson arrangement, there being a mandolin, two guitars, a violin and a cello. The quintet is composed of the following: Leon E. Dier, mandolin; J. E. Patterson, violin; J. E. Patterson, cello; J. E. Patterson, guitar; and A. M. Patterson, piano.

WILL REORGANIZE TONIGHT

W. P. Kinney and J. J. Eubank closed their terms as school directors at a special meeting of the board last night. When the returns of Monday's election were canvassed, the canvass showed that the winning candidates, Frank P. Evans and Frank C. Hayman, each received an additional vote to those shown in the first count. The regular monthly bills were allowed, and the board adjourned. The newly elected directors attended the meeting.

The new board will meet tonight for reorganization, election of officers and appointment of committees. The members of the board whose terms hold over are C. H. Dudley, Dr. George D. Kennedy and Mrs. Katherine K. Mowry. Mr. Dudley has served a term as president of the board, and it is believed that Dr. Kennedy will be the new president.

CIRCUS!—CIRCUS!—CIRCUS! Y. M. C. A. Gym, Friday and Satur- day, 8 p. m.

Y. M. C. A. Notes

The annual meeting of the Young Men's Christian association takes place next Monday night. Invitations have been issued to the adult members to be present at the dinner, which will be served at 6:30. Five directors will be elected at this time to serve for three years. Following the addresses of the evening an exhibition will be given in the gymnasium. All members of the association are requested to return their acceptance cards not later than Friday morning. In order that arrangements may be made for the dinner, a large attendance already is assured.

The committee on Y. M. C. A. golf has been very busy the last few days, and has arranged for considerable work on the course. The greens have been made much larger than formerly, and new cups have been placed in position. The course now is in fine shape for the players. It is hoped that a good membership can be secured within the next few weeks.

The annual Y. M. C. A. circus will be next Friday and Saturday evenings at 8 o'clock. Preparations have been made this year for the handling of the crowd. Mr. Erps, physical director, has arranged for a number of special features which will be of great interest to the audience. The Y. M. C. A. circus is not a farce but is a real exhibition of gymnastic features and a special program of acrobatic work, which is always pleasing to the audience.

Ticket holders are asked to examine the ticket numbers as some tickets have either been lost or stolen. Any one who holds tickets numbered 136 to 140 and 486 to 496 (children's), and tickets numbered 141 to 146 and 511 to 520 (adults) should return these tickets to the Y. M. C. A. and secure other numbers, as these tickets will not admit to the circus.

The final examinations of Bible classes have all been held and the reports have been forwarded to New York city for credit. Several classes took the course prescribed by the international committee this year.

Deaths and Funerals

Leater Tony Curkline, aged 23 years, died in this city Monday. He came to Colorado Springs recently from South Bend, Ind. Funeral arrangements will not be made until the arrival of a brother, who is coming here from that city.

SIX MEN UP IN COURT

Of six men appearing in police court yesterday, two were released, two are under suspended sentence, a fifth had his sentence cut down to one day in jail, and a sixth fined \$5. Four of the cases were for begging and two for drunkenness. U. Lane, aged 16, of Enid, Okla., and R. Owen, aged 17, of Bellair, O., in court for begging, were discharged and allowed to go to Colorado City to get work. Neil Parsons, arrested for begging, who had been up in police court recently, and had been released on condition that he go out of town, was fined \$10, but his sentence was suspended with instructions that he get out of town in two hours. He is on his way to Wyoming. William Mains was fined \$10 for begging, but \$5 was remitted on good behavior, and he served out the rest in jail yesterday. Dan Collins was fined \$5 for drunkenness, sentence suspended, John Winn was fined \$5 for drunkenness, and committed to jail in default of payment.

FREE WOOL WOULD NOT HURT COLO. SELDMORIDGE

WASHINGTON, May 4.—Congressman Seldmridge of Colorado declared in a brief speech in the house this afternoon that free wool would not injure the sheep-growing industry in Colorado.

Congressman Mondell of Wyoming, replying, declared that free raw wool would almost ruin the industry of the west and will not materially reduce the cost of woolen goods.

At The Theatre

MADAME NAZIMOVA

YSAYE IS MAKING HIS FOURTH TOUR OF AMERICA

Those who like the book play, as well as all of the theatergoers, have much to look forward to in the coming engagement of the talented Russian actress, Madame Nazimova, at the Grand Monday, May 12.

The play is "Bella Donna," which has been made out of the popular novel of the same name, by Robert Hichens, and it has been one of the dramatic sensations of the year. It is one of the longest and generally spoken of strongest roles this actress has ever played, and her art has never been seen to greater advantage. The performance is interesting, both as a study in psychology and in sociology as well, for it will be remembered that the heroine of the novel is an out-and-out bad woman, a Twentieth century combination of Lucretia Borgia and Cleopatra. There are four acts in the play, the first being placed in the consulting room of a London physician, the second in the drawing room of the villa Androu, on the banks of the river Nile, the third, the deck of the dahabeyah "Louisa," and the last, in the gardens of the villa Androu. Charles Frohman has made an elaborate and handsome production for "Bella Donna," and the company to be seen in the support of Madame Nazimova is an exceptionally capable one. Charles Browne plays the leading male part, having been brought from England especially for this engagement.

MADAME NAZIMOVA

PRIVATE INTERESTS HOLD BACK ALASKAN PROGRESS-PINCHOT

WASHINGTON, May 6.—Gifford Pinchot charged before the senate territories committee today that private interests had held up legislation to open Alaskan fields under a leasing system and named former Senator Guggenheim of Colorado as one of the men who had exerted his influence to prevent such legislation.

He told the committee that he could get the names of other men in and out of congress who were in opposition to the leasing system.

Mr. Pinchot had been called to give his opinion of the bill for the government aid in the construction of Alaskan railroads. He was asked why, in his opinion, legislation to develop the Alaskan coal fields had taken so many years to get through congress.

"Do you mean that members of congress have been influenced by private interests against such legislation?" asked Senator Lippitt.

"I mean what you all know, that private interests have great influence in congress," returned Mr. Pinchot. "There was strong opposition from Senator Guggenheim to the passage of the leasing bill. There were others. I can get the names if you want them."

The former forester declared that in his judgment the government should operate railroads in Alaska. He believed in the leasing system for minerals. He added that if the government had retained possession of the coal fields of Pennsylvania, there would never have been such "political corruption" as he said existed in that state.

Mr. Pinchot advocated the retention in government possession of all "factories of power," coal, oil and water power.

"Power," he said, "is the greatest tool of civilization. The curtailment of sources of power is the main reason for the high cost of living."

Mr. Pinchot was the only witness today. He spoke for two hours and is expected to file several written communications with the committee. Former Secretary of the Interior Walter L. Fisher is expected to appear tomorrow.

anything about the financial side of the proposed concessions will see, is a most remarkable showing.

Few, if any, artists have been made the recipients of more adulation from women, Paderevski perhaps excepted. Ysaye has a home near the Palais de Justice in Brussels. He is married to the daughter of a Belgian army officer and has several children. He is a man of much modesty and great wealth and is devoted to his family.

"REPORT IMMEDIATELY," DEMAND SUFFRAGISTS ON AMENDING CONSTITUTION

WASHINGTON, May 6.—When members of the senate woman's suffrage committee reached their offices today they discovered awaiting them a formidable resolution demanding that the committee "report immediately" a resolution amending the constitution so as to grant to women the right of suffrage.

The resolution was adopted at the suffrage meeting in New York Saturday. It was brought back personally by the Washington women who took part in that affair.

While the crusade to get immediate results will be continued, the suffragists, it was made known today, are preparing for a more formidable assault on congress when it reconvenes.

Mrs. Lawrence Lewis, Jr. of Philadelphia, will arrive within a few days to make the preliminary arrangement for the annual convention of the suffrage association next December. Although the date is somewhat distant, it was declared the early preparation for the gathering were for the purpose of insuring one of the greatest gatherings of "advanced women" the country has seen.

A large delegation from here will attend the suffrage parade to be held in Baltimore May 31. Plans for the delegation were laid today.

Search for Men Who Robbed Japanese Colony

LOS ANGELES, May 6.—A sheriff's posse left here in automobiles today in search of three desperadoes who terrorized and robbed a colony of Japanese vegetable raisers at New Market this morning. The Japanese reported that they awakened from sleep to look down the barrels of revolvers held by three masked men who forced them to stand against the walls of their shacks, hands up, while a search of the building and their clothes was made. The total loss the Japanese reported was \$50 in small change.

URGE DIVISION OF STATE CALIFORNIA

SACRAMENTO, Cal., May 6.—A proposal to divide the state of California at Tehachapi pass, naming the northern half "California" and the remainder "South California," is made in a resolution introduced in the senate this morning by Senator John R. Sanford of Ukiah, Democratic national committeeman.

The resolution sets forth that California is inadequately represented in the United States as compared to the New England states and that some means should be provided for giving this area additional senators. In his resolution the senator takes occasion to remark:

"That territory known as 'south of the Tehachapi' is peculiarly adapted geographically to become a state and is populated by a class of people who are politically, morally and chemically pure and do not wish to be contaminated by being brought into contact with the inhabitants of the northern part of the state, and the rest of the state should set off itself so that the real genuine Progressives and Democrats of southern California may be given an opportunity to flee from the wrath to come and seek a haven of rest among a class of people who are only human but not angels."

The resolution goes on to provide for submitting the question of state division to the people to be voted on at the next general election. The resolution was referred to the committee on federal relations.

Try "GETS-IT,"—See Every Corn Vanish!

The Corn Cure on a New Plan—Gets Every Corn Quick and Sure

You've tried a lot of things for corns, but you've still got them. Try the new, sure, quick, easy, painless way—

"First Time in My Life I Got Rid of Corns. 'GETS-IT' is a Marvel!"

The new-plan corn cure, "GETS-IT," Watch it get rid of that corn, wart, callus or bunion in a hurry. "GETS-IT" is as sure as time. It takes two seconds to apply—that's all. No bandages to stick and fuss over, no salves to make corns sore and turn true flesh raw and red, no plasters, no more knives and razors that may cause blood poison, no more digging at corns. Just the easiest thing in the world to use. Your corn days are over. "GETS-IT" is guaranteed. It is safe, never hurts healthy flesh.

Your druggist sells "GETS-IT," 25 cents per bottle, or direct if you wish, from E. Lawrence & Co., Chicago. Adv.

Denver Amusement Inspector Now Can Retain Her Position

DENVER, May 6.—The civil service commission today upheld Miss Josephine Roche recently discharged as inspector of amusements, and declared that her dismissal by the fire and police board was unwarranted.

Two courses now are open by which the controversy may be settled. Miss Roche, on the strength of the civil service board's findings, can bring a mandamus suit in the district court to force the fire and police board to reinstate her or the fire and police board can discharge her again on formal charges of incompetency.

When Miss Roche was dismissed, no

charges were preferred and it was announced by the fire and police board that the action was in the interest of municipal economy.

ANTIPRIZE FIGHT BILL KILLED IN CALIFORNIA

SACRAMENTO, Cal., May 6.—Assemblyman H. W. Brown's antiprize fight bill was defeated on reconsideration in the assembly tonight. Tonight's action defeats the bill finally for the present session.

Suspect Released, Detective 'Fired'

HOUSTON, Tex., May 6.—Paul P. Bowen, formerly of Atlanta, Ga., arrested here Sunday on suspicion that he was implicated in the murder of Mary Phagan in Atlanta, was released late today.

When Bowen's release was announced, Chief of Police Ben Davidson also gave out the information that he had relieved Chief of Detectives Peyton, who was instrumental in causing the arrest of further duty with the department. The explanation was that Peyton had exceeded his authority.

A Boston scientist, Professor A. J. Honeil, claims to have discovered a cure for leprosy.

SUFFRAGE QUESTION AGAIN UP IN WISCONSIN

MADISON, Wis., May 6.—The Wisconsin assembly concurred tonight in the Glenn woman suffrage bill, which provides for a referendum on the issue in 1914.

At 10:40 tonight in France, having more than 1,000 inhabitants, about 8,000 are without any public lighting. Of the remainder, 1,349 are lighted by gas, 2,762 by electricity, and 152 by acetylene.

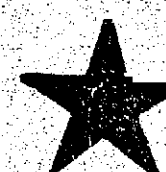

Express packages in nearly all large railway stations are now handled by electric trucks and elevators.

In 1902 the first electric truck was used in Boston. Now there are hundreds of electric trucks on the streets of that city.

Dye, Don't Buy

Don't buy a new dress this spring, dye the old one that you put away last fall, with Purman's Fadeless Dyes. It costs but a few cents and gives perfect satisfaction.

Aluminum For Modern Kitchens

It's so beautifully shiny and looks so pretty. Every woman loves shiny things. It's not nearly such hard work in the kitchen when you have bright stew pans and kettles that are so light and so easily kept clean. And aluminum is the best kind of metal to cook with, because it conducts the heat so well.

Come in and see how attractive the most common kitchen utensils become when made of aluminum. You'll save money if you buy them, because they'll last a lifetime.

FLIES—Get a fly trap and clean your yard and you can laugh at the doctor all summer. HEALTH DEPARTMENT. Adv.

THE ONLY FIREPROOF GARAGE in this city charges the same or less for storage, repairs, supplies and vulcanizing. Call and see. The O. W. Blake Auto Co. Adv.

SEEK W. H. RILEY—The local police are looking for W. H. Riley at the request of his sister, Mrs. Hattie Osborn, of 2053 India street, San Diego, who believes him to be in this city.

DUMP FIRE—A dump fire beneath the Midland trestle on South Conejos street called out companies Nos. 1 and 2 and the fire department at about 7:40 o'clock last night. It was thought for a time in town that the trestle itself was burning, but it was not damaged. The blaze was extinguished with little difficulty.

THE WRONG DOLAN—James E. Dolan, fruit and vegetable dealer, and candidate for constable at the last election, is not the J. Dolan, apple peddler, who was arrested for supposed intoxication by the police last Saturday. The similarity in names and occupation caused James E. Dolan no trouble.

A Special Purchase of 1,500 Yards of the Season's Most Fashionable Silks, Bought at an Exceptionally Low Price

\$1 and \$1.25 Fancy Silks 65c Yard

NEVER in our experience have we been in a position to announce a Silk Sale at the very height of the season in which the price was so overwhelmingly in favor of the buying public as in this sale today. This lot of silks consists of the season's newest and best color combinations, in neat stripes, checks, plaids and figures in messalines, Louisines and taffetas; suitable for dresses, waists, petticoats, linings, etc. 24 to 27 inches wide, regular values \$1 to \$1.25 yard. **65c** Sale price per yard

A Sale of Silks at Giddings' means that the occasion is of exceptional importance. The goods of standard quality, the quantities large, the styles desirable, the values very unusual and the accuracy of statements guaranteed.

little annoyance, he says, J. Dolan happened to be in a house raided by the police, but explained his presence satisfactorily in court, and was released.

Colorado City DEPARTMENT

A dramatization of "Diamonds and Toads," by the pupils of the fourth grade, will be one of the features of the program to be given this afternoon at the meeting of the Parent-Teacher association of the Whittier school. The meeting will be held at the school house at 3:30 o'clock, and all members are requested to be present. Visitors are cordially invited.

Mrs. J. M. Smith of 22 Colorado avenue, who was called to Salida recently by the death of her sister-in-law, Mrs. O. H. Brers, has returned to Colorado City.

Store your household goods—Dust-proof. Warehouses. Call up C. M. Sherman. Adv.

ASSASSIN KING GEORGE COMMITS SUICIDE BY JUMPING OUT WINDOW

ATHENS, May 6.—Aleko Schinas, who assassinated King George of Greece, March 15, at Saloniki, committed suicide this morning by flinging himself out of a window of the police station that city.

Schinas was a native of the town of Volo, Thessaly. He killed the king by shooting him in the back while he was walking along the streets of Saloniki, accompanied by an aide de camp. He gave as an explanation of the crime that in 1911 he had applied for assistance at the king's palace and had been driven away.

A few days ago the doctors examined Schinas and announced that he was dying of tuberculosis.

"Elect Infant" Clause in Confession Faith Not Changed by Vote

LOUISVILLE, Ky., May 6.—For the second time, the proposed amendment to the confession of faith, in connection with the much discussed "elect infant" clause, has failed to receive the necessary three-fourths vote of the presbyteries of the Southern Presbyterian church. Although defeated on a former occasion, the general assembly last year again submitted to the presbyteries the matter of changing the language of the confession of faith. Returns received up to tonight by the Christian Observer of Louisville, shows that 22 Presbyteries already have voted against the proposed change, thus insuring its defeat.

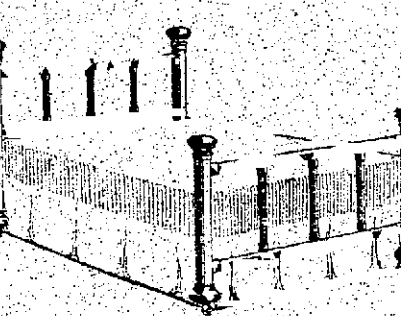

It has been charged that the language of the confession as it now reads, "elect infants dying in infancy," etc., can be construed as declaring that some infants are elect and some are nonelect. Those who favor the change argued that the church believes all children dying in infancy are saved and that the confession of faith should be revised so as to clearly convey this idea.

HORSE RADISH MAY SOON BE CHEAPER

WASHINGTON, May 6.—Horse radish may become cheaper as the result of the decision today by the customs court, overruling the treasury department's pleading for a 25 per cent ad valorem duty on horse radish roots, the court decided that the roots should be admitted free of duty.

The new wireless station at Fort Myer, near Washington, has a range of over 5,000 miles.
